## PREMIUM OILS

A BayWa Company

### Food

Our oils derived from plants, seeds, fruits, or nuts, are commonly used in cooking and food preparation to add flavor, texture, and nutritional value to various dishes.

### Cosmetics

Our formulations are used in skincare and beauty products for their nourishing and moisturizing properties, delivering essential vitamins and antioxidants.

### Petfood

Rich in essential fatty acids, the oils we offer enhance pet food for a balanced, nutritious diet. They promote skin and coat health, boost energy, and contribute to overall well-being of pets.

### Pharmaceutical

Our high-quality purified oils, crafted for pharmaceutical use enhance drug absorption, acting as carriers for active ingredients. Carefully selected and processed, they guarantee safety and efficacy in formulations.
